

The 12 Best Study Spots At Georgia Tech

1. Flag Building

One of the most popular study spaces on campus, the Flag building is easily accessible and rather comfortable for those long study sessions.

2. College of Design's Garden

If you like studying in open spaces but still prefer a quiet environment, this is a good bet.

3. CULC Rooftop

Best sunset viewing point on campus. If you like to study and want a good view at the same time, this is it!

4. Tech Green

Now that it's finally open, it can continue to be a hangout spot for all the students.

5. GT Connector

My favorite spot on East Campus! It has small rooms (with TVs) for quiet study and a big one (with a projector) if you don't mind the noise. It also offers LAP tutoring at night.

6. By the Campanile

Grab a coffee from Blue Donkey at the Student Center (or not if you're not a fan of caffeine and just sit and chill here. Oops, I mean study. Sit and study here.

7. Under the Ledge of Skiles (Floor 0)

Great place to go study between classes.

8. Behind Hinman Courtyard

One of my favorite spots on campus simply because I've never seen a lot of people here. Perfect for some quiet study. It might require some directions to get to though.

9. H2O Cafe - CRC

For when you have homework due, but you also have to work out for them gains.

10. The Library (3rd and 4th floors)

Eerily silent. If you like that kind of an environment to study, probably your best bet on campus.

11. Under the Couch, Student Center

Originally a live music venue and a recording studio by the musicians' network, but a great place to get some work done when not in use.

12. Outside Highland Bakery on Historic Campus

Sip on coffee and finish that homework!
